-  Skin safe (ISO 10993-10)
-  REACH compliant
-  Long lasting and durable
-  Made in Canada at our ISO14001 certified plant, 99% powered by renewable hydroelectricity

LESS IS MORE

Geo FRee & Eden FRee are 100% free of chemical FR (Fire Retardant) additives.

Yet, thanks to their inherent flame-resistant properties, MorGreen® products achieve the European Fire Norm EN1021 (Part 1&2) as well as the much coveted Oeko-Tex label.

Formulated without phthalates, the MorGreen® FR-free range offers an alternative option, meeting the growing demand for eco-friendly solutions whilst still providing top performance qualities across a wide range of applications.

Other Geo FRee & Eden FRee green features:

-  Contain bio-based renewable ingredients, such as common salt
-  Phthalate free formulation
-  Low VOC (volatile organic compound) water based formulation
